DINESH CHAUHAN

Marathahalli, Bangalore | +91 8081256703 | dinesh4uchauhan@gmail.com | linkedin.com/in/dinesh-chauhan-b20417215

PROFESSIONAL SUMMARY

Computer Science (Data Science & AI) graduate with hands-on training in Python, data analysis, SQL, statistics and machine learning, supported by practical projects in data cleaning, EDA, predictive modeling, recommendation systems and retrieval-augmented generation. Seeking an entry-level Data Science role to apply analytical thinking, clean coding practices and problem-solving to data-driven products.

EDUCATION

B.Tech in Computer Science (DS + AI) — 2026 | Shri Ramswaroop Memorial University, Lucknow, Uttar Pradesh | CGPA: 6.9/10

Diploma in Plastic Mould Technology — 2023 | CIPET, Ranchi, Jharkhand | 78%

Matriculation — 2020 | A.J.J. Academy, Lashkarpur Sadar, Varanasi, Uttar Pradesh | 68%

TECHNICAL SKILLS

Programming: Python, SQL, HTML, CSS

Data Analysis: NumPy, Pandas, Data Cleaning, Preprocessing, EDA

Visualization: Matplotlib, Seaborn

Statistics: Probability, Probability Distributions, Bayes' Theorem, Sampling, Central Limit Theorem

Machine Learning: Scikit-learn, Supervised Learning, Unsupervised Learning, Regression, Random Forest, Feature Scaling, Pipelines, ColumnTransformer

Deep Learning / AI: Neural Networks, TensorFlow, PyTorch fundamentals, MNIST, LLMs, RAG, Whisper

Databases: MySQL, Joins, Subqueries, Constraints, Foreign Keys, Views, Indexes, GROUP BY, Aggregation, Stored Procedures

Web / Tools: Requests, BeautifulSoup, Anaconda, Jupyter Notebook, Git, GitHub, Google Colab, Flask basics

PROJECTS

Coders of Delhi | Python, Data Analysis, Recommendation System

GitHub: https://github.com/Kartikdinesh451/coders_of_delhi.git

- Analyzed user and page data after cleaning and structuring JSON datasets, including friend-network and shared-interest information.
- Implemented People You May Know and Pages You Might Like recommendations using mutual-friend relationships and shared interests.

Coders of Bangalore | Python, Pandas, Matplotlib

GitHub: https://github.com/Kartikdinesh451/coders_of_banglore.git

- Performed data cleaning, standardization and exploratory analysis on coder/profile data to analyze categories, followers and post activity.
- Created visualizations and summary insights to identify category distributions, top followers and high-performing profiles/posts.

Gurgaon Housing Price Prediction | Python, Pandas, Scikit-learn, Streamlit

GitHub: https://github.com/Kartikdinesh451/gurgaon-house-price-prediction.git

- Built an end-to-end machine learning regression pipeline covering data preprocessing, stratified sampling, missing-value handling, feature scaling, one-hot encoding and model evaluation.
- Compared regression models and developed a Random Forest-based prediction workflow with RMSE evaluation and a Streamlit interface for interactive predictions.

RAG-based AI Teaching Assistant | Python, Whisper, Ollama, BGE-M3, DeepSeek-R1

GitHub: https://github.com/Kartikdinesh451/rag_based_ai.git

- Built a retrieval-augmented AI assistant that converts video content into timestamped transcripts using Whisper and prepares transcript chunks for semantic retrieval.
- Implemented BGE-M3 embeddings, cosine-similarity retrieval and LLM-based responses with DeepSeek-R1 via Ollama, enabling answers grounded in video content with timestamps.

CERTIFICATION

The Ultimate Job Ready Data Science Course — CodeWithHarry

Python, NumPy, Pandas, Data Visualization, SQL, Statistics, Machine Learning, Neural Networks, Git/GitHub and practical projects.

Certificate ID: CWH-THE-ULTIMATE-JOB-READY-DATA-SCIENCE-COURSE-OS8JXR9Q

LANGUAGES

English, Hindi
